

December 9, 2009

ABR is pleased to announce that Samantha “Sam” Simpson is the new receptionist/administrative assistant in our Anchorage office. Sam grew up in Fairbanks, attended West Valley High School, and received her bachelor’s degree in aquatic biology from Buffalo State College in NY. In addition to office duties, she will provide assistance on fisheries projects. Prior to joining ABR, Sam worked for the Fish & Wildlife Service as a fisheries technician and is interested in continuing her work in the natural sciences. We look forward to keeping her busy with both administrative and biological work. Welcome, Sam!
